The gravamen of his argument was that good reads would bring the clites dieser to the country and would provide better facilities for the rural population in reaching the markets. T. S. Coleman, Commonwealth's attorney of Spetsylvania county, declared that while his county had not completed all plans for the construction of good roads, yet those already comploted had increased the value of real estate and fairm property and that in one year after the competion of a stretch of good roads taxable values had risen \$75,000.

In a statement explaining his action Governor Dix says he is informed that Justles Gerard's decision in the babeas corpus case in effect hoids that the conviction of Brandt was flegal, and that he therefore has no power to exercise elemency or to conduct a locating in a matter pertaining to an application for elemency. If the decision of Justice Gerard is reversed, the Governor added that there would be full investigation. In view of the new phase of the case the Governor advised Alton B. of the Brandt matter.

Final Action Far Distant.

New York, February 22.—As far as could be learned to-night the decision of Gover nor Dix to suspend action in the case of Polke B. Brandt, former valet of Mortimer L. Schiff, will not interfere with proceedings here to determine whether Brandt's thirty-year sentence for burglary was lilegal. In view of the announcement by District Attorney Whitman that he would appeal from the decision of Justice Gerard sustaining the writ of habes corpus applied for in behalf of Brandt, final disposition of the case seems far distant owing to the delay sure to result.

Meanwhile it is expected Brandt will be released to-morrow on \$5.09 hall.

That the grand jury investigation to determine whether there was a conspiracy scaling Brandt will go on was assumed to-night, it was reported to-night that this investigation had so far progressed that the jurymen had voted in favor of indicting one person, but had not in hand as yet the necessary evidence to indict another, two persons at least being required to enter into
